

## **SUPER ORIENT H400**

### **PRODUCT DATA**

CONSTITUTION :-	Super Orient H400 is an aqueous non ionic dispersion of Poly vinyl acetate emulsion.
APPEARANCE :-	White high viscous emulsion
VISCOSITY :-	1000-1200 poise RION VT-04 at 25C
NATURE :-	Non- ionic
PH :-	4.5-5.5
SOLID :-	42% +/- 1%
SOLUBILITY :-	Soluble in hot & cold water
STABILITY :-	Stable for a long time
PRINCIPAL PROPERTIES :-	Good quality mono polymer Good application properties Fast Dry
Application :-	Super Orient H400 is used for gluing hard wood , Ply, chipboard, Soft wood and Formica where strong and fast bonding is required.
